

PGCon 2010

The PostgreSQL Conference

- PGCon is an annual conference for users and developers of PostgreSQL, a leading relational database, which just happens to be open source.
- PGCon is the place to meet, discuss, build relationships, learn valuable insights, and generally chat about the work you are doing with PostgreSQL.
- If you want to learn why so many people are moving to PostgreSQL, PGCon will be the place to find out why.
- Whether you are a casual user or you've been working with PostgreSQL for years, PGCon will have something for you.
